

# Quest

Training that makes a difference

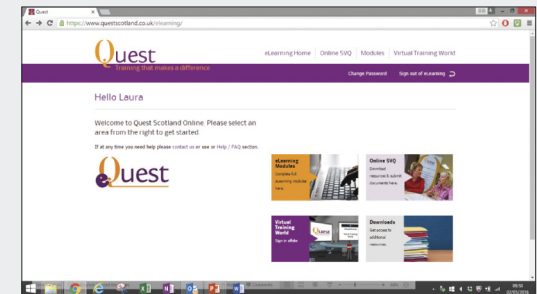

## What our customers say:

"I've never come away with so many ideas from a workshop - Laura was excellent"

"The support I received from Quest until I had finished my qualification was great. I really appreciate the time and patience shown by my assessor."

We have developed our own ePortfolio to allow our SVQ and PDA learners to upload evidence into a secure location. eQuest has an eLearning platform where we can design programmes which are interactive and fun.

The use of a web based portfolio, means our learners can come from near and far, and they do:

America, India, Kingdom of Bahrain, United Arab Emirates and of course Dundee and the rest of Scotland!

## Funding

Funding may be available for training through Skills Development Scotland and the Students Award Agency for Scotland.

Give us a call to discuss.

If you don't see the training you would like, please get in touch as we can design and deliver other learning solutions too.
