Quest

TRAINING THAT MAKES A DIFFERENCE

myQuest Portfolio is a straightforward eportfolio for evidence gathering, sharing of resources and reporting of progress which has been designed by assessors and verifiers here at Quest.

It allows your candidates, assessors and verifiers to upload, view and assess evidence in a secure eportfolio. It also enables you to produce progress reports for multiple students.

myQuest Portfolio has proved to be incredibly popular with learners who have commented that the platform makes it easy for them to access their work at a time that suits them, with the real time progress report boosting their sense of achievement and encouraging them to proactively manage their work towards finishing their qualification.

It has been developed so customers can purchase their own platform, featuring their own branding and being managed by themselves.

WHAT PEOPLE HAVE TO SAY ABOUT QUEST

What did you like about the training?

All of it, the environment was great. Ashley's style of delivery is very warm and energetic. The course was thought-provoking and thoroughly enjoyable.

Daryl McKenzie

First class - will recommend to people in the future.

James Kyle

I went into the workshop quite nervous about the entire training package knowing that I would be delivering a training session on my own 1 week later. Within the hour of the workshop beginning, I was so much calmer and completely engrossed in the training. The days flew in. I enjoyed all of the activities and gained so much knowledge and confidence.

Evie Knight

What would you change?

Honestly - nothing! Brilliant course, and I thoroughly enjoyed the 3 days.

Allison Reid

No suggestions for improvement, I think the course was well set out and expertly delivered.
